"After Blake was done fucking my ass, I knew I had really been reamed! I felt like I had sat on a salami!"

"To be a true ass master, a man needn't be hugely hung; though naturally, size is a plus."

"Patience and poise, however, are crucial to most anal seductions."

"Women who like to get fucked in the ass may be few and far between; but fewer still are the number of men who know how to do it right."

"A body builder jock into
assfucking, with a powerful,
hard-driving dick, is my notion
of a real stud."

"There's something about squeezing a big, throbbing cock deep inside my butthole that always gets me off in record time."

"3-ways are even more of a turn-on when they include assfucking. I can't think of a hotter way to break several taboos at once."

"As far as I'm concerned,
wherever they go and whatever
they do, big dick are always
best!"

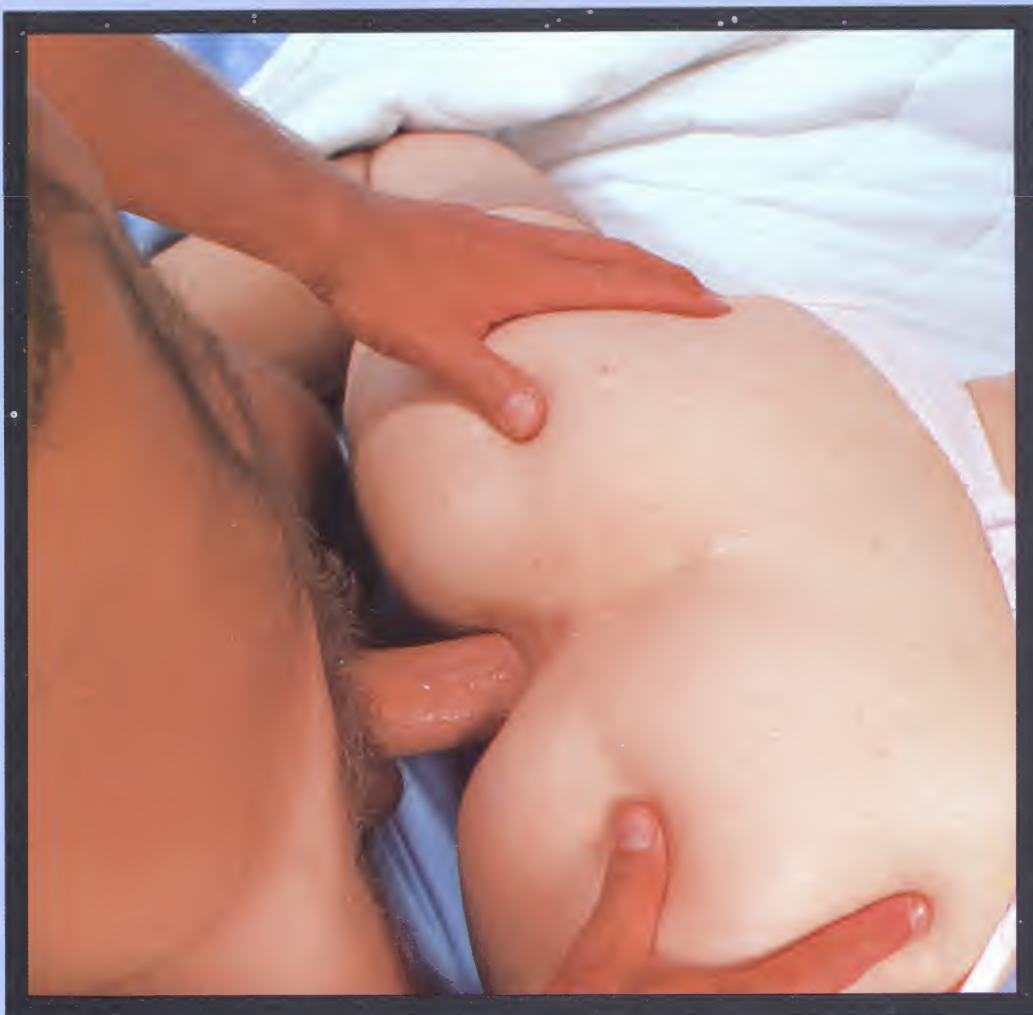

"I've heard more than one
woman say that big dicks are
incompatible with tiny,
puckered assnoles."

"A finger up my asshole will often mean the difference between cumming and not cumming for me."

"I will always let a new lover know this before climbing onto his lap."

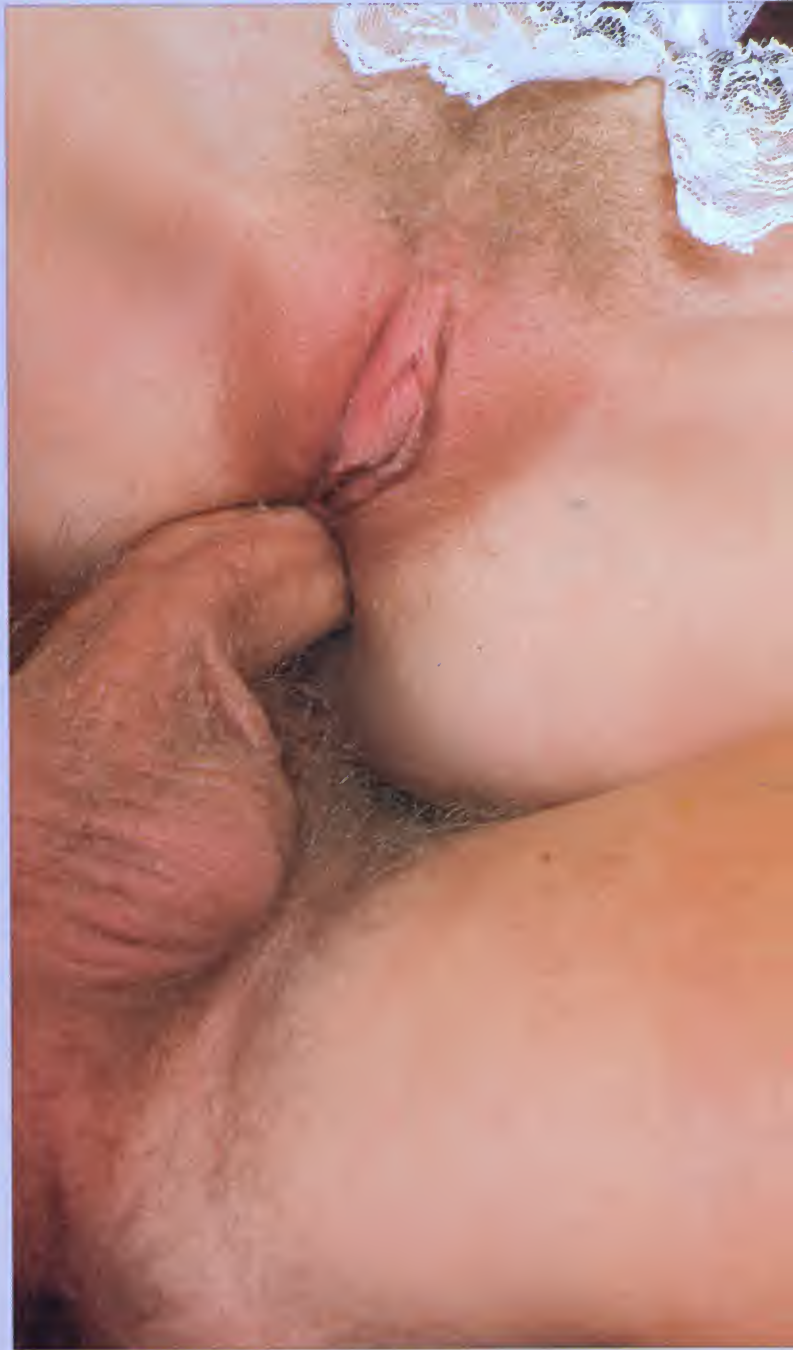

"I prefer to ease down on it slowly, taking in one stiff inch at a time."

"When I take an extra large cock up the ass, I must be the one in control."
